EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Muldoon, Patrick C. on 12/6/05.

The application has been amended as follows:

Claim 1, line 10, after "switching means providing said first group time division multiplex access to said first signal", insert --;--.

Claim 22, line 13, after "percentage of said plurality of information bursts", insert --;--.

Claim 36. A method for providing information communication between a plurality of locations, said comprising the steps of:

providing a plurality of antenna units each having a predetermined radiation pattern with different azimuthal coverage to provide directional communication adapted for air link communication in a frequency band of the millimeter wave spectrum of frequencies;

switchably connecting ones of said antenna units to a first signal to provide time division multiple access to said first signal, wherein said time division multiple access includes a plurality
